

--18. The chair or seat as claimed in claim 8 wherein the bearing member has a tapered pivot bush adapted to be received by the aperture on the arm or frame of the chair and the annular member of the pivot member.

19. The chair or seat as claimed in claim 8 wherein the bearing member has a tapered pivot bush adapted to be received by the aperture on the arm or frame of the chair and the annular member of the pivot member.--

REMARKS

Prior to an examination on the merits of the above-identified patent application, please enter the foregoing amendments.

Claims 1-9 and 11-19 are now pending in the above-identified patent application. Claim 1 is the single claim presented in independent form.

By the present preliminary amendments, Applicant has cancelled Claim 10, presented as a multiple dependent claim, and has recited the alternatives of Claim 10 as new dependent Claims 18 and 19, thereby avoiding the use of multiple dependent claims.

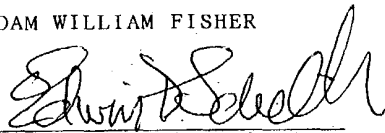

The application is now in condition for a full examination on the merits.

Accordingly, an early examination on the merits and allowance are, therefore, respectfully requested and earnestly solicited.

Respectfully submitted,

ADAM WILLIAM FISHER
